What tasks do I need to complete in order to have my game working?

Come up with your “wish list” of tasks and features for your game:

## Graphics:

What graphics do you need to make?

Character

Aliens x5

Weapons

Trees/Bushes

Rocks

Boat

Chests / Pickups

Bullets

## Interface:

Whole parts of the interface?

Menu Buttons

Shop

Highscores / Leaderboard

Alien Descriptions / Planets

## Programming Components:

What components do I need to develop. (Remember these should be whole things you can complete and test functionality)

Camera Movement

Character Movement

Character Health

Money

Score System

Alien Health

Alien A.I

Shooting

Upgrading Weapon

Waves / Alien Spawning
